Exercise

Title Closure Skills

Areas of Work / Skills
The ability to take bits of information and fill in what's missing.

Duration

Resources Required

Detail (step-by-step explanation of the task)

Using text – remove some of the words that are there, then ask someone else to fill in the gaps. It is interesting to compare as an individual, do I come up with the same ideas as the text and others or are my ideas unique? If it is different then this is not bad it means that you need to realise that the way my mind processes things is different. If you are using your closure skills and you know that you have unique ways of processing things you may need to ask more of the person speaking (clarification) or listen to how others are using the information and what they are inferring from that information. Maybe adopt more of the way they are doing things.
E.g. I need to get home because Billy needs his walk – so at this point you don't know if Billy is an animal or a human. So therefore more information is needed to obtain the meaning.

Progression / Variation (eg. Are there more advanced or different ways of approaching the same task?)

What materials did you use for this task? Any other recommendations?

Review (was it simple / effective / would you recommend it?)
