| Broaden my knowledge of working within the field of mental health | Observe experienced colleagues, attend training, group discussion, research | Agreement from colleagues/purchasers for observation, finances for training, books, journals, internet (other reading materials) | Confidence in my skills/competence to accept work in this domain. A better awareness of the issues faced for interpreters working within the field of mental health, a further plan of action. | Jan 2006 | This is ongoing development an action plan is needed for continuous development |
| Interpreting in the legal domain | Attend training, observe colleagues, research, access resources available, group discussion, feedback | Time/finances to attend training, agreement from colleagues/purchasers to for observation, access to a group of my peers for discussion/advice, mutually agreed format for feedback | Confidence in my skills/competence to accept work in this domain, feedback which shows the areas for improvement more development, a better awareness of the legal domain and the issues, a further plan of action | March 2006 | As above |
| Develop my referencing skills - rather than repeating terminology through better placement | Ask for feedback from colleagues, reflect in practice, practice BSL story telling to work specifically with placements | Video material, books, mutually agreed format for feedback, journal for reflection | Less repetition of terminology, more coping strategies, more confidence when dealing with placement and referencing | May 2006 |  |
